Arlington (April 23, 2015) – Haifa Iversen, Arlington High School teacher, was joined by 27 high school students from her Environmental Science class to work on the Portage Creek Clean Up event on Saturday, April 11, 2015. The high school students weren’t afraid to get their hands dirty or wade through chest deep water to collect 400 pounds of trash from the covered bridge area in front of the high school and at the Zimmerman Trail stairs area. They also planted 75 trees under the direction of Bill Blake, Arlington Resource Director. The students enjoyed giving back to their community. Ms. Iversen proudly stated, “It was a very fun and powerful day. I am hearing so much great feedback from the students and staff!”
